MLA Citation Style – Images & Other Audiovisual Media

The information on this handout is derived from the 7th edition of the *MLA Handbook for Writers of Research Papers* and other sources. For more examples, see the *MLA Handbook, 7th edition*, Section 5.7.

**Internal Citation**

For Images/Audiovisual Media in Document:
Cite using the guidelines on FLITE’s standard MLA Citation Style handout.

For Images/Audiovisual Media in Slideshow:
Place either artist-title or URL of image into small textbox on the slide using small font (suggested: 8).

**Works Cited**

Image and other audiovisual media citations should appear on the Works Cited list at the end of the paper. Entries should be alphabetized by first word of entry and alphabetized with the print and electronic references on the list. Do not list images separately. When using images in a presentation such as a slideshow, prepare a Works Cited list on a separate slide at the end of the presentation. Use the same guidelines listed on FLITE’s standard MLA Citation Style handout.

**Image (including photographs and video) from the Internet with title:**

**Image (including photographs and video) from the Internet without title:**
[When no title is given, use a descriptive title. Do not italicize descriptive title or use brackets.]

**Image (including photographs and video) from the Internet under Creative Commons license.**
[When artwork has a Creative Commons license.]

**A Work of Visual Art Reprinted in a Book**

**Artwork from a Library Database**
